25X1 4. [] LLM) Delivered letter to Miss Marcia J.
25X1 MacNaughton, professional staff member of Senate Subcommittee on
Constitutional Rights, in reply to Senator Ervin's inquiry on behalf of
[] former employee of the Agency retired for disability.
25X1 Miss MacNaughton indicated they were primarily interested in whether
the Agency had followed proper internal procedures. Our letter satisfied
25X1 this point. In response to Miss MacNaughton's query for any information
she may use to quell [] anxiety concerning Agency action, she
25X1 was told that in the only inquiry received from a potential employer, the
Agency had replied that [] integrity, character, and loyalty
were beyond question and that she had rendered a professionally competent
performance. Miss MacNaughton welcomed this information and said she
would contact us if any further questions develop.

25X1 5. [] - JGO) Met with Howard P. Willens, Executive
Assistant, Criminal Division, Department of Justice, and Mr. Herbert
S. Miller, of the staff of the Criminal Division, concerning present
considerations by the Department of Legislation concerning attempts on
the life of the President, Vice President, and other Federal officials.
Mr. Willens very cordially offered any assistance his office can provide
in bringing the question of inclusion of the DCI among others within the
coverage of the proposed legislation and suggested, as a possible course
of action, submission of our views to the Bureau of the Budget so that
they would be available for consideration by the Bureau and by the
Commission in submitting legislation proposals for inclusion in the
President's legislative program.

25X1 6. [] - JGO) Discussed with Mr. Wilfred Rommel,
Bureau of the Budget, the present request through the Bureau of the
Budget from the Commission appointment by the President for comment
on proposed legislation concerning attempts on the life of the President,
Vice President, and others. Mr. Rommel indicated that it had not
occurred to them to request comments from the Agency and suggested
that we reference today's conversations and submit our view in normal
fashion to the Bureau.

JOHN S. WARNER
Legislative Counsel
